

## ACKNOWLEDGEMENT

On behalf of the school administrators, teachers, students, as well as local authority and residents of Kaun Khlong and Prey Damrey villages, Prey Tauch commune, Mong Russey district, Battambang province;

We would like to avail ourselves of this opportunity to profoundly thank Mr. **Bell** and Mrs. **Nancy** and their children, Mrs. **Man Soeurn** and her children, as well as other generous people who have made their own financial contributions to support the educational development at this school.

With your invaluable financial support to cover the costs of land filling, the school, in the first phase, now has such a spacious courtyard which was merely an open space rice field in the past, an achievement of which we could never expect. Besides, it would be also grateful if more support could be continuously provided to finance the development projects of the school building construction.

To not disappoint you, we are working together cooperatively so that the construction project could be completed and implemented successfully.

Let us assure you that your generous acts will always stay in our hearts for years to come. On behalf of the commune chief, school administrators, teachers and parents of the students, we would again like to take this opportunity to call for more donations from generous people in the United States of America to help build more schools in order to respond to the current need of our people. We are very much convinced and hoped that you will continue to provide us every humanity aid at our request.

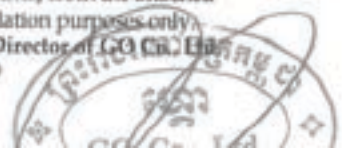

We would finally like to wish you all happiness and prosperity for years to come.

Prey Tauch, July 18, 2009  
**Commune Chief**
